 - Help enhance team productivity, shorten sales cycles and reduce travel costs
-

IBM SmartCloud Meetings

Meet in the IBM cloud anytime, anywhere with anyone

When your employees, customers and partners are scattered all over the globe, you need a quick, reliable, and security-rich way to share information in real-time. Emailing files and trying to get participants to follow along in a teleconference can be frustrating and inefficient. Traveling to face-to-face meetings is costly and time-consuming.

IBM SmartCloud™ Meetings is a full-featured web meetings service in the IBM cloud, designed for businesses of all sizes. Quickly and confidently distribute information, share applications and give presentations in a security-rich environment. An intuitive, easy-to-use interface helps you to set up and run your own meetings—anytime, from anywhere—with a web browser and an internet connection.

SmartCloud Meetings features include:

- Web meetings for up to 999 attendees
- No downloads for attendees to view meetings—fewer meeting delays
- Desktop and application sharing for Windows and MacOS
- Webcam-based videocasting
- Automated recording to QuickTime, MOV or Windows WMV formats
- Audiocasting, Polling and Roster with Chat
- Security-rich service via HTTPS encrypted with 128-bit SSL
- Accessibility from Apple iPhone, Apple iPad, Google Android and BlackBerry mobile devices
- Availability in 22 languages

With SmartCloud Meetings you can expect:

- Affordable and accessible cloud services
- Low upfront investment
- Predictable expenses via monthly and annual subscriptions
- Minimal IT staff required

SmartCloud Meetings draws on IBM's world-class experience in delivering security-rich, business-ready services.

System requirements at a glance
